PAWAN KUMAR NIMMAKAYALA

AI/ML ENGINEER & FULL-STACK DEVELOPER

Visakhapatnam, India | +91 96529 81118 | nimmakayalapawankumar7@gmail.com
linkedin.com/in/pawan-kumar-nimmakayala-3a69042a2 | github.com/PAWAN1118

Education

Bachelor of Technology, Computer Science | Minor in AI & Machine Learning — Sep 2023 - Apr 2027 (Expected)
Anil Neerukonda Institute of Technology and Sciences (Andhra University) | CGPA: 9.3/10.0

Experience

Software Developer Intern | Kyrowork Technologies (Alcove) — May 2026 - Present
Visakhapatnam, India

- Build Spring Boot services and secure APIs for HealthBuddy, JyothishHub, Extractum, and KyroPOS, supporting 5,000+ active users across four production applications.
- Develop OAuth 2.0/JWT authentication, booking, and payment APIs; improved response times by 45% with query optimization and Redis caching.
- Created shared Java modules used across three projects, reducing code duplication by 35%; also deliver React dashboards and real-time visualizations.

Full-Stack Developer | Medikloud — Dec 2025 - Mar 2026
Remote

- Built patient-facing features and backend APIs for appointments, medical records, and notifications on a digital healthcare platform.
- Implemented Prism role-based access for patient, provider, and admin workflows and partnered with engineers to improve reliability.

Projects

AI Multi-Agent Code Generation System | Python, LangChain, FastAPI, Redis, Celery — Jan 2026 - Mar 2026

- Built planner, coder, and reviewer agents with RAG context retrieval; handled 100+ code-generation requests/hour at 85% accuracy, with 60% lower latency and 3x throughput.

HealthBuddy | AI-enabled healthcare | Spring Boot, PostgreSQL, Redis, RAG

- Co-built booking, authentication, and patient record modules supporting 5,000+ users; integrated a WhatsApp RAG assistant and ABHA health-record connectivity.

Extractum | Document extraction | Python, Flask, OCR, PyMuPDF, Supabase

- Built a PDF application to extract text, tables, images, and metadata, with OCR and optional Supabase storage.

KyroPOS | Restaurant point of sale | Spring Boot, React, PostgreSQL

- Developed a restaurant workflow for order management, billing, and kitchen coordination to reduce manual steps and errors.

Technical Skills

Languages: Python, Java, JavaScript, SQL, C, HTML/CSS | **Backend:** Spring Boot, FastAPI, Flask, Node.js, Express.js, REST APIs, OAuth 2.0, JWT, RBAC

AI/ML: Generative AI, LangChain, RAG, multi-agent systems, prompt engineering, NLP, PyTorch, TensorFlow, scikit-learn

Data/Cloud/Tools: PostgreSQL, Redis, MongoDB, AWS EC2/S3, Docker, Git, GitHub Actions, CI/CD, Linux, pytest, JUnit, Postman

Certifications & Recognition

IBM Full Stack Software Developer Professional Certificate (Coursera) | NPTEL/IIT Programming in Java

Eureka Challenge 3.0 National-Level Semi-Finalist | Amazon ML Hackathon Final Round
